

# DUSKITS, LLC

**DUSKITS** offers a comprehensive line of downdraft sanding tables for industry, and a series of kits for smaller shops and individual craftsmen. All of our units are engineered with high capacity blowers and motors, utilize dual filtration design, and have ample filter area (up to 70% more than competitive units).

**DUSKITS** finished tables are available in 36x48, 48x48, 36x72, and 48x96 top sizes. Common features include 2" square steel tube frames, dual filtration design, CNC milled 3/4" MDF tops, and TEFC motors driving **reverse incline** blowers. Our tables have a wooden framed top on a steel base. Most of our tables larger than the 36x48 can be ordered in a high capacity version which provides much higher air flows and greater filter area. Casters and adjustable height legs are optional.

If you need quality downdraft equipment and can provide some of the materials and labor yourself, or want something a little different, then our line of kits might be of interest. These are available in top sizes of 36x48, 48x48, 36x72, and 48x96 (we are happy to provide assistance in modifying dimensions to suit). The kits have the same dual filtration design as our tables, and include the same high quality motor, fan and inlet cone, motor mount, CNC milled MDF top surface, motor switch (starter with overload protection on

**48 x 96 Table**

**Typical kit-built 36x72 table**

kits), pre-filter media, and complete, detailed plans and instructions. The average shop has most if not all of the necessary materials on hand already, with miscellaneous hardware (screws, bolts, glue, hinges and some wiring) a further requirement. Our kits are **not** available in high capacity versions due to filter area constraints.

Let **DUSKITS'** staff answer your sanding questions. Their wide experience, both as users and suppliers of sanding equipment, is a valuable resource that we are happy to make available to the industry.

### 36x48 Model Specifications

- ✧ 1.5 hp TEFC Motor
- ✧ 3500 CFM (free air)
- ✧ 2 16x25x1 pleated filters
- ✧ 2 20x25x1 pleated filters
- ✧ 37 inch working height  
(casters add 2 inches)
- ✧ Weight - 575 pounds
- ✧ Sound Level approximately 74 db
- ✧ Not available in high capacity model

### 48x48 Model Specifications

- ✧ 1.5 hp TEFC Motor
- ✧ 3500 CFM (free air)
  - **Hi Capacity** model 7000 CFM
- ✧ 8 16x25x1 pleated filters
  - **HiCap** uses 16x25x2 filters
- ✧ 37 inch working height  
(casters add 2 inches)
- ✧ Weight - 600 pounds
- ✧ Sound Level approximately 74 db

### **36x72 Model Specifications**

- ✧ 1.5 hp TEFC Motor
  - **Hi Capacity** 2 1.5 hp motors
- ✧ 3500 CFM (free air)
  - **HiCap** model 7000 CFM
- ✧ 8 20x25x1 pleated filters
  - **HiCap** uses 20x25x2 filters
- ✧ 37 inch working height  
(casters add 2 inches)
- ✧ Weight - 650 pounds
- ✧ Sound Level approximately 74 db

### **48x96 Model Specifications**

- ✧ 2 1.5 hp TEFC Motors
- ✧ 7000 CFM (free air)
  - **Hi Capacity** model 13000 CFM
- ✧ 8 20x25x1 & 4 16x25x1 pleated filters - **HiCap** uses 2" filters
- ✧ 37 inch working height  
(casters add 2 inches)
- ✧ Weight - 970 pounds
  - **HiCap** 1150 pounds
- ✧ Sound Level approximately 75 db

### **Features Common to all DUSKITS Tables**

- ✧ Dual Filtration Design utilizing commonly available filters
  - Non-woven pre-filter material under top
  - Pleated filters around base
- ✧ Highest quality components throughout - most manufactured to **DUSKITS'** specifications
  - Reverse Incline Blowers for increased CFM at higher static pressures
  - TEFC motors
  - Heavy steel frames
- ✧ Casters Optional
- ✧ Side curtains Optional (for sanding tall pieces such as chair frames)
- ✧ Standard Non-Skid pad included - replace for a few dollars if necessary
- ✧ Designed and built by folks who have real hands-on sanding experience
- ✧ Blower(s) may be left running continuously to filter shop air if desired
- ✧ **High Capacity** version available with much higher CFM for demanding jobs
- ✧ .75" CNC Milled MDF top surface
- ✧ Low Sound and Vibration Levels
- ✧ Rugged construction allows use as a workbench
- ✧ Explosion Proof units may be available. **NOTE: NOT** rated for explosive metallic dusts. Please contact us if your application requires sanding explosive metallic dusts (aluminum, magnesium)

**NOTES:** Prices and specifications subject to change without notice.

Normal delivery time is 5-6 weeks ARO, special units will take longer.

Some electrical components may be imported. If you require US made parts, let us know. Prices will change.

Three phase tables require the services of a qualified electrician at your shop. Three phase tables come ready to wire (wire pulled from starter to motor, *but not connected - your electrician must connect and check motor for proper voltage and rotation*).

All units are FOB Martinsville, Virginia. Special sizes and or configurations may be available - let us know your requirements.
